Spotlight Kids
This month’s exceptional students are
MATEO SPENCER & GEORGE SAKOWSKI-KELLY
for
BEING RESPONSIBLE LEADERS

Youth Guidance at STEM Newsletter
February/March 2018

Hey Parents!
It may not seem like it but spring is right around the corner!
We have a bunch of fresh ideas coming your way this upcoming month!

Spotlight Class: Creation Station
One of our favorite classes this session was Creation Station! Led by Ms. Getz, students worked with a variety of materials to make unique and interesting art pieces. Recently they worked with fabric to create tableaus using puffy paint and markers!

COMING THIS SPRING:
Magician’s Code and Clay Play!
Headed by the illustrious Ms. Chang, this spring’s newest additions are sure to be showstoppers. Whether your student is under the spell of card tricks or sculpting the next statue of David, they are sure to have a blast in after-school!

Look Out for Spring Classes!
There are only 4 more weeks before the spring session begins but luckily, registration is open! Be sure to enroll your students in after-school ASAP!

Send us your recyclables please and thank you!

Paper Towel Rolls
Children’s Books
Legos
Glass Jars (all sizes)
Old /Used Boardgames (missing pieces OK!)

SPRING SESSION REGISTRATION
OPEN NOW!

SUMMER CAMP REGISTRATION
OPENS MARCH 1ST, 2018

First Day of Spring
MARCH 20th, 2018
As many of you know, we take homework time very seriously. Being responsible for schoolwork is one of the values STEM works hard at instilling in the students and we here at YG only seek to reinforce that. After all, what would after-school be without school? In order to ensure a successful homework time, we ask that you and your child make sure that they are prepared for homework time each day. Whether that means double-checking that they have their homework packets in their backpacks or just making sure they have something to do during the hour. We’d really appreciate any help you can give us in making sure your child is getting their homework done before Friday. We also recommend that older students have something to work on that is not on a computer in case computers are not accessible or the internet is not cooperating. Just a reminder that part of the requirement of homework time is that everyone bring homework and a book to read or something quiet to work on independently, should students finish early or have nothing left to do. If you want some suggestions of cool books you can bring, check out the NYT Bestseller’s list. We hear The Hate U Give is a really compelling read!

Hey parents!
Can’t find anything fun for the kids to do this summer? How about sending them to South Loop for Summer Camp!
The theme this year is Board Games: Out of the Box! Each week of camp will have a theme and tons of activities centered around teamwork and strategy. Board games we’ll be playing include but are not limited to:
- Clue
- Monopoly
- Where’s Waldo
- & more!
The schedule of themes and other camp info can be found here.
If you have questions about registration or anything after-school related, please call us at 312.404.3219
